**DETAILED ACTION**

**Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard K. Huffman, Reg. No. 41,082 on 12/22/08.

Application has been amended as follows:

**Claim 12**

Line 1, "6" has been changed to --1--.

***Allowable Subject Matter***

1. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose the combination of:

- a) performing of cryptographic instructions within a pipeline microprocessor,
- b) CFB block cryptographic operations, and
- c) indication of an interrupting event occurring when said cryptographic instructions take place.

The prior art of record, Yup (20020191784), teaches cryptographic operations but does not specifically disclose the CFB mode logic type of cryptographic operations.

Applicant discloses CFB mode encryption as background information but the combination of that and the prior art of record does not disclose encryption occurring within a pipeline microprocessor.

Laurenti (6795930) teaches a pipeline microprocessor but has no mention of encryption/decryption capabilities.

The prior art of record also does not disclose any indication of a bit capable of indicating whether an interrupt as occurred during cryptographic operations within a pipeline microprocessor.

Although the prior art of record discloses CFB mode logic encryption and pipeline microprocessors, the prior art does not disclose that mode of encryption being used with pipeline microprocessors as being recited in claims 1, 22, and 28. It is the combination of the type of encryption method with pipeline microprocessors within an x86 instruction format that is not taught by the prior art of record. Therefore, claims 1, 22, and 28 are allowed. Claims 2-5, 7-12, 14-21, 23-26, 29-30, 32, 34 are allowed as being dependent upon allowed dependent claims 1, 22, and 28.

Any comments considered necessary by applicant must be submitted o later than the payment of the issue and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement for Reasons for Allowance".

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
